COMING ATTRACTIONS

NUMBER 64 MARCH, 1982

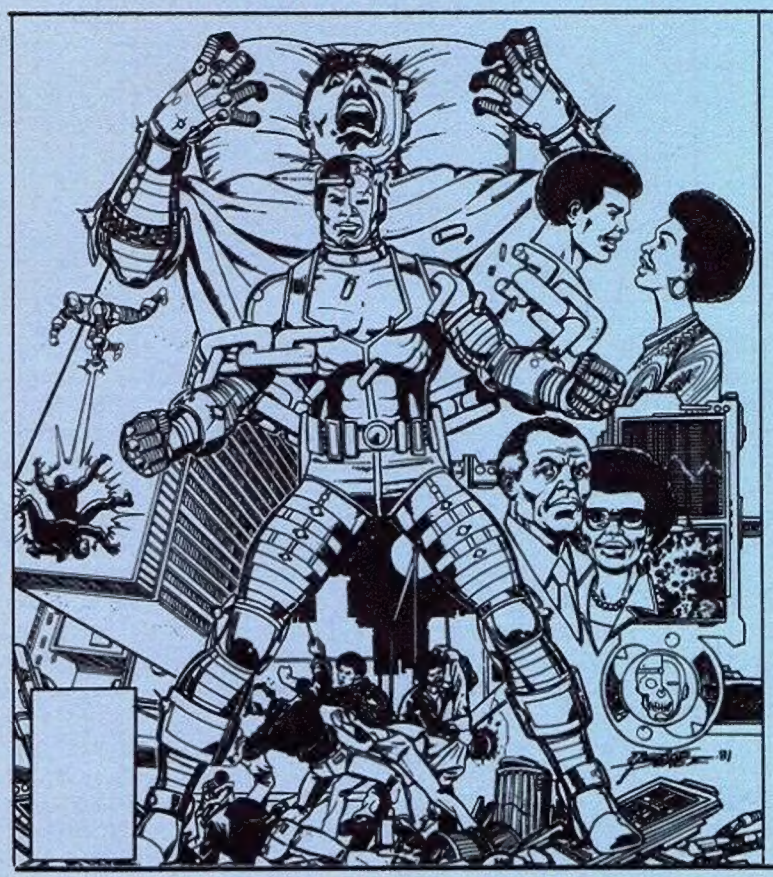
FIRESTORM IS BACK IN ALL-NEW ACTION BY CONWAY/BRODERICK!

Born of the fury of a nuclear explosion... the melding of two consciousnesses into one... with command over the very forces of matter... that's Firestorm, and he returns to the pages of his own series this month in THE FURY OF FIRESTORM #1.

Said Gerry Conway, Firestorm co-creator and continuous scripter, "Firestorm is DC's fun-loving super-hero. His life is going to be full of the normal ups and downs, but he basically enjoys being a super-hero. I'm also going to be splitting the difference this time around and pay more attention to the other half of the Firestorm alter-ego, Professor Stein."

In the premiere issue, Firestorm is faced with a new foe. John Ravenhair is an American Indian history teacher whose body is taken over by the spirit of his recently deceased great-grandfather, a tribal shaman. The result is the stampeding Black Bison, a savage Indian out to avenge the injustices done to his people in the white man's world.

Be sure to join writer Conway, penciler Pat Broderick and inker Rodin Rodriquez for "The Day of the Bison" in THE FURY OF FIRESTORM #1.



SECRETS OF CYBORG REVEALED IN TEEN TITANS MINI-SERIES!

Since its introduction over a year and a half ago, the New Teen Titans has become the number one comic from DC, both in sales and fan response. Now, to celebrate the most fantastic super-group of all time, DC is proud to present a new four-part mini-series based on the new members of the team, TALES OF THE NEW TEEN TITANS.

The series leads off with a story chronicling the life of Victor Stone, aka Cyborg. Titans regular scripter Marv Wolfman and penciler George Perez bring you a book length tale telling you everything you've ever wanted to know about the team's cyborg hero, including how he came to be, his first case, and how he was chosen to become a member of the new group.

In the months to follow, TALES OF THE NEW TEEN TITANS will spotlight Raven, Changling, and Starfire, respectively, all written by Wolfman, with each issue featuring the services of a different embellisher over the mind-boggling pencil art of Perez.

The TALES OF THE NEW TEEN TITANS mini-series is sure to be as popular as its monthly parent title. Be certain to have enough on hand to handle the Titanic demand.
